Passes 12 sec burn.
[Additional flame treatments available upon request.]

Durability Rating:
8 out of 10

Anti-soil:
Available upon request for this collection

Color: Bos Grey, SDDUFT3854

Sustainability
Demar leather partners with companies and people who share our commitment to environmental consciousness. Leather is a durable, long-lasting material that makes productive use of hides generated as a byproduct of the food industry. It's strength and longevity can reduce the need for frequent replacement, helping to minimize material consumption and waste over the life of a product. With responsible sourcing and modern manufacturing practices, leather is the best choice for products designed to perform and last for many years. Please visit **demarleather.com/responsibly-sustainable/** for more information.

Care & Maintenance Instructions
Leather is a natural material and, if properly cared for, will maintain its beauty and usefulness for many years. Direct exposure to strong light can cause any leather color to fade, so always protect leather from direct sunlight and other intense light sources. It is also advised that leather products be kept away from radiators or other generators of heat. Periodic dusting and vacuuming is recommended for normal maintenance of leather. Should leather get marked or stained, please use only mild soap and water and first test a discrete area before treating the affected spot. Do not use Saddle Soap, cleaning solvents, oil, or abrasive cleaners. For Suede, Transfer, Hair on Hide and Customized non-standard leather – please contact the Demar Leather Co. main office for additional information.
